

WHY CHOOSE DORN?

DORN offers on-site proactive measures to prevent and mitigate the risk of musculoskeletal disorders (MSDs). Unlike other treatments, DORN's manual therapy is tailored to address the specific needs of an employee based on their health and unique job responsibilities. As a non-OSHA recordable treatment, our manual therapy fits seamlessly into a wellness program. Additionally, DORN therapy expedites and enhances the effects of physical therapy. Through a combination of education, training, and on-site monitoring and therapy programs, DORN offers a holistic approach to workplace safety and wellness.
